PROFESSIONAL SUMMARY

Nearly a decade of experience in technical troubleshooting, customer care, and B2B/B2C sales for Fortune 500 and enterprise clients, such as AT&T, American Express, QVC, and Blue Cross Blue Shield. Utilize a BS in Computer Science to rapidly diagnose technical issues, bridging the gap between backend engineering, seamless product adoption, and continued support. Recognized for top 1% sales performance, with a strong focus on first-contact resolution, lasting client retention, and clear communication across diverse audiences.

EDUCATION

Bachelor of Science in Computer Science

*Southern New Hampshire University
Sep 2021 – Dec 2024*

Summa Cum Laude

3.99 GPA • President's List

Associate of Arts in General Studies

Tyler Junior College • IT Focus

CORE COMPETENCIES

Hardware & Software Diagnostics, VoIP, ISP Issues, Remote Desktop Support, Help Desk Operations, System Management

B2B & B2C Sales & Account Management

Client Retention, KPI Achievement, Transactional Pipeline Management, Customer Relationship Management (CRM), Ticketing Systems, Negotiation

Soft Skills

Technical Communication, Conflict Resolution, Strategic Relationship Building, Concept Translation

Tools & Platforms

MS Office Suite, CRM & Help Desk Ticketing Systems, Telephony & Auto-Dialer Software, Technical Documentation, Research & Analysis

RELEVANT EXPERIENCE

Software Tester & Developer

Jan 2025 – Present

App.Buddy (Independent Venture)

- Diagnosed and resolved complex application defects across Android, web, and Python platforms through systematic root-cause analysis, identifying logic bugs, and executing automated regression testing (JUnit, Espresso).
- Documented technical issues, reproduction steps, and resolutions in structured reports, building reusable reference materials for recurring defect patterns.
- Translated complex technical findings into clear, user-facing guidance — bridging the gap between backend system behavior and end-user experience.

Premium Support Technician IT Support

 Remote

2012 – 2013

NEW (National Electronics Warranty) [acquired by Asurion]

- Delivered inbound technical support for DirecTV Premium Protection Plan subscribers, resolving hardware, software, and satellite configuration issues at first contact.
- Managed customer accounts and financial transactions using CRM software, maintaining detailed records of all interactions and resolutions.
- Consistently met KPIs and proactively identified upgrade opportunities during inbound support interactions, contributing to team retention targets.

Technical Support Agent IT Support

 Remote

2011 – 2012

teleNetwork [acquired by Asurion]

- Diagnosed and resolved complex hardware, software, VoIP, and ISP issues for telecommunications clients via remote desktop tools.
- Documented technical resolutions in CRM knowledge bases, contributing to team efficiency and first-contact resolution rates.
- Translated complex troubleshooting steps into clear, actionable guidance for customers across diverse technical backgrounds.

Technical Designer Tech Design

2013 – 2021

Freelance

- Independently designed and constructed a standalone music studio using AutoCAD and SketchUp, and partnering with a master carpenter to build a 3-bedroom home.

Direct Sales Associate Top 1%

2004 – 2009

TCIM Services

- Consistently ranked as a top 1% performer — frequently holding the #1 spot among 100+ representatives — far exceeding KPIs across nearly five consecutive years in outbound B2B/B2C sales.
- Managed a high-velocity transactional pipeline within proprietary, in-house CRMs, making rapid, systematic decisions to execute one-call closes, schedule strategic follow-ups, and fully notate accounts for seamless department transfers.
- Independently earned a Texas State Insurance License within one month to qualify for a 35% base pay increase — demonstrating rapid skill acquisition and self-direction under deadline pressure.
- Developed high-conversion call scripts adopted across multiple teams and trained junior representatives on objection handling and closing techniques, directly improving team conversion rates and long-term client retention.
